

Postponement "Compostela City Race"

According to the measures taken by the Spanish and Galician authorities, as well as the Spanish, Galician and International Orienteering Federations, it has been decided to postpone the "Compostela City Race".

The current situation, caused by the COVID-19, prevents the celebration of our event, characterized not only by its sports and sharing environment, but also by its international character.

We hope to inform as soon as possible about a new date, a notification that will be made with enough time to reschedule your trips.

Moreover, for those people who want to be informed about the event and its date, we are going to use [this form](#) where you can indicate your e-mail so as to be in contact with us.

In the following days, we will inform you about how to recover or maintain your fees registrations.

We thank you for your patience.
